Title: Lion head Chinese Tibetan Mastiff puppies
Description: Our breeding facility is family oriented and selective. Living in the country provides all the freedom and stimulus necessary for the proper development of all our puppies. Our main objective is the quality of breeding instead of quantity of available puppies. Our puppies are born under close supervisor in a sanitized, designated whelping area which converts as they grow into a larger atrium, and have full access to an outdoor obstacle course to further expend their socialization.
