Condition: New
Title: Marine Inspection Services
Description: [Marine Inspection Services](#) - Experienced marine surveyor in Australia for the ship inspections, audits, and surveys. Services are provided at all Australian ports, PNG, New Zealand, and Oceania.

Ship surveying and inspection is the process of assessing the condition and safety of a ship to ensure that it complies with international regulations and standards. This process involves examining the ship's structure, machinery,

equipment, and systems to identify any potential hazards or deficiencies that could compromise its seaworthiness.

Ship surveying and inspection can be carried out by various entities, including classification societies, flag states, port states, and independent surveyors. These entities use different methods and standards to assess the ship's condition and safety, depending on the purpose of the survey or inspection.
