[Industrial air cooled chiller CW-5000](#) is very popular among CO2 laser cutting machine users and it is the best selling refrigeration type water chiller unit produced Guangzhou Teyu Electromechanical Co., Ltd (also known as S&A), a professional China-based chiller unit manufacturer with 16-year experience.

[Small industrial water](#)

[chiller CW-5000](#) has small size, but its cooling performance can not be overlooked. It features cooling capacity of 800W and the temperature stability of $\pm 0.3^{\circ}\text{C}$. Small size and excellent cooling performance makes industrial water chiller unit CW-5000 a perfect choice for CO2 laser cutting machine users who don't have too much working space.

In addition, [Industrial air cooled chiller CW-5000](#) is charged with environmental friendly refrigerant R-134a in order to protect the environment, which shows S&A is an environmentally responsible enterprise.

To guarantee the product quality, [Small industrial water chiller CW-5000](#) has to go through a series of strict simulated laboratory tests and the core components such as evaporator, condenser and sheet metals are independently developed by S&A.
