Do you need a medicine
that your doctor doesn't
want to prescribe?.
Is it an urgent situation
and you can't contact a
doctor? Our offer includes
real and legal
E-prescriptions for all
medications WITHOUT
DOCUMENTS.
We issue prescriptions
based on the data of the
client or one of our
colleagues (a prescription
for a colleague does not
involve any additional
costs!).
The cost of the
prescription depends on
the preparation and the
number of packages

ordered.

Our team cooperates with many doctors with various specializations.

Thanks to this, we are able to obtain a prescription for virtually any drug.

One RP prescription may contain a maximum of 8 packages of a given preparation. In the case of prescriptions for RPW drugs, it is determined depending on the drug (usually 4 packages, depending on the manufacturer's recommendations).

We guarantee that your prescription will be fulfilled within 24 hours.

We have never been late for an appointment, customers receive prescriptions at good prices, on time, which is confirmed by dozens of positive opinions about our services on our website.

We handle small retail orders as well as wholesale prescription products, everything is negotiable. If you are interested in something more than medicines, professional, hermetic packaging of the product and shipping to an InPost parcel locker or doorstep Delivery address, we do not do this in the case of medicines, it is much

easier to simply send the
prescription.
